

irr::IReferenceCounted

irr::IReferenceCounted

irr::scene::ISceneCollisionManager

```
classDiagram
    irr::IReferenceCounted <|-- irr::scene::ISceneCollisionManager
```

The diagram illustrates an inheritance relationship. At the top, two identical boxes represent the `irr::IReferenceCounted` interface, separated by a vertical dashed line. Below them, a box represents the `irr::scene::ISceneCollisionManager` class. A solid line with an arrowhead at the top left connects the `irr::scene::ISceneCollisionManager` box to the left `irr::IReferenceCounted` box, indicating that `ISceneCollisionManager` inherits from `IReferenceCounted`.
