

irr::scene::IVertexManipulator

irr::scene::IVertexManipulator

irr::scene::SVertexColorContrastManipulator

```
classDiagram
    class irr_scene_IVertexManipulator["irr::scene::IVertexManipulator"]
    class irr_scene_SVertexColorContrastManipulator["irr::scene::SVertexColorContrastManipulator"]
    irr_scene_SVertexColorContrastManipulator --|> irr_scene_IVertexManipulator
```

The diagram illustrates a class hierarchy. At the top, there are two identical boxes representing the base class, `irr::scene::IVertexManipulator`. Below them, centered, is a box for the derived class, `irr::scene::SVertexColorContrastManipulator`. A horizontal line with upward-pointing arrowheads at both ends connects the two top boxes. A vertical line descends from the center of this horizontal line to the top of the bottom box, indicating that `irr::scene::SVertexColorContrastManipulator` inherits from `irr::scene::IVertexManipulator`.
