

irr::IReferenceCounted

irr::IReferenceCounted

irr::scene::ISceneNodeFactory

```
classDiagram
    class irr_IReferenceCounted["irr::IReferenceCounted"]
    class irr_scene_ISceneNodeFactory["irr::scene::ISceneNodeFactory"]
    irr_scene_ISceneNodeFactory --|> irr_IReferenceCounted
```

The diagram illustrates a class hierarchy. At the top, there are two identical boxes representing the `irr::IReferenceCounted` class, each enclosed in a dashed border. Below these, a solid-bordered box represents the `irr::scene::ISceneNodeFactory` class. A horizontal line with upward-pointing arrows at both ends connects the bottom of the two `irr::IReferenceCounted` boxes to the top of the `irr::scene::ISceneNodeFactory` box, indicating that `ISceneNodeFactory` inherits from `IReferenceCounted`.
